**REPORT OF THE
PUBLIC HEALTH NURSING PROGRAM**

The Vermont Department of Health since July 1, 1951 has offered a program which affords an opportunity for all the towns in the State to have some Public Health Nursing Service. Prior to this date, certain towns did not share the benefits of this Service. The offering of a state-wide Public Health Nursing Service has necessitated the need of making it a limited program due to the amounts of funds available for this purpose. This service has been financed entirely by State and Federal Tax funds. No town contributions are required.

Under the new program, it is necessary for local citizens and school personnel to take the initiative in the developing of their own community health programs with the advice and assistance of the Public Health Nurse.

In addition to assisting with the health program for infants, preschool, and school children, the Public Health Nurse, under the supervision of the family physician, may give services to persons reported with tuberculosis and venereal disease, since the control of these diseases is delegated by law to the Health Department.

The report of Miss Mary Schinoski, Public Health Nurse, for the period January 1, 1952 through December 31, 1952 shows the following services were given by her.

Medical conferences were the responsibility of Mr. Arthur Oulton, Superintendent of Schools, Mr. Leland Congdon, Health Council Chairman, and Health Council members, Mrs. F. Dennis, R. N., Mrs. Donald Parker, Mrs. Willard Dexter, Mrs. Bernard Doty, and members of the Parent-Teachers' Association.

Case Visits made—

- 84 Health Supervision
- 10 Communicable Disease
- 4 Cancer

Infant and Preschool Program—

- 43 children were given physical inspections

Immunization given:

Smallpox:

13 vaccinations

Diphtheria-Tetanus:

3 first doses

1 completed series and booster doses

Diphtheria-Tetanus-Pertussis

11 first doses

6 second doses

9 completed series and booster doses

School Program—

23 children were given physical inspections

Immunization given:

Smallpox:

11 vaccinations

1 revaccination

Diphtheria and Tetanus:

5 first doses

13 completed series and booster doses

Tetanus:

1 booster dose

Miss Schinoski is available also to assist with plans for Civilian Defense, but thus far has not been called upon to do so.

Respectfully submitted,

LOIS STEARNS,

Public Health Nursing Supervisor

VERMONT DEPARTMENT OF SOCIAL WELFARE

Montpelier, Vermont

This is our seventeenth annual report to the citizens of the Town of Clarendon on State payments in your municipality of various types of assistance and welfare during 1952.

The total number of recipients in the State has remained stable for two years but expenditures are larger by reason of increases in payments to meet increased costs for food, fuel, rents and services. Funds for the support of these programs were derived from the Federal Government, 63.3 percent, State Government 34.8 percent and Town or City 1.9 percent. Total administrative expenses for the four types of Public Assistance were 4.1 percent.

Old Age Assistance	\$7,119.00
Aid to the Blind
Aid to Dependent Children	1,568.00
Aid to the Disabled	72.00
Committed Children	2,503.86
TOTAL	\$11,262.86

W. ARTHUR SIMPSON,
Commissioner.

Reason why the town can buy, own and operate equipment for less than they can hire it.

1. When a town buys equipment they do not have to pay any federal tax on it.

2. A town is exempt from the federal tax on gas, oil and tires.

3. The town can register its trucks for \$20. which is about a fifth of the regular rate.

4. The town can borrow money to finance the purchase of equipment for 1½ - 2% interest.

5. It does not cost the town anything when the equipment is on the job but not working.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Board of School Directors and Citizens of the Town of Clarendon:

I herewith submit my sixth annual report as your Superintendent of Schools.

EDUCATION FOR ALL

Many of our schools of 50 and 100 years ago were good schools. They prepared young people for life in a kind of society in which they found themselves. The principal occupation was farming. There was little travel; books were scarce; newspapers and magazines were never seen in many homes.

There were few subjects taught in the schools of long ago, and they were frequently taught very well. From those classrooms came many American leaders in all walks of life. It is true, however, that these schools served a much smaller percentage than our schools of today. School terms were short, and teachers were often poorly prepared. Children too often remained in school for just a few years. As the years passed, society and education had to change with the times, and so in recent years the curriculum is much broader than that offered years ago. Today, we are trying to teach children, rather than subject matter. We must study each child's ability and interest, and adapt our school subjects and activities to his needs. The curriculum must be adapted to more than the average child; it must provide for the one-fourth of the children who are above average, and the one-fourth of the children who are below average.

Our teaching is based on the thought that every child, regardless of ability, has some one thing he can do well. We must find those good points, and build from there. A neglected gifted child is as much wasted as a neglected handicapped child. Every teacher has a very important job to do.

HOME AND SCHOOL COOPERATION

One of our objectives is to further a close cooperation between school and home in the development of worthy objectives by the pupils. The school cannot do it alone, neither can the home do it alone. Therefore we must do it together.

Nothing can be gained by teachers criticizing parents, or parents criticizing teachers. We cannot emphasize too strongly, whether or not you receive a special invitation to a private conference with your child's teacher, the value of your dropping in at your child's school to visit with the teacher.

FUTURE SCHOOL PLANNING

Your superintendent feels that it is his duty to place before you the recommendation that there be ample school planning to meet the needs of a growing community. All of us must be looking ahead. If our town continues to grow, if the birthrate remains high, the elementary school population will continue to rise.

All of us realize that our elementary schools are old. Eventually, we are going to have to face the problem of replacing them with a modern school structure. At the present time, there is no financial help to any community that tries to solve its school housing problem. I would expect, however, that within the next decade, there would be aid on a matching basis from both federal and state sources to be used for school building purposes.

It would be good business for the Town of Clarendon to give serious thought to acquiring a tract of land, which would be suitable for constructing an elementary school in due time. To delay in making such a purchase, might prove very costly.

SCHOOL BUDGET FOR 1953

The School Directors have done much work on the development of the budget for 1953, and are making every effort to keep expenses at a minimum. However, school costs are moving upward due to:

1. Increasing enrollments.
2. Higher tuition costs as voted at the town meeting of last year.
3. Anticipated increments for our personnel.

Your Directors also plan on carrying a program for school improvements a step further.

Here is a comparison of our current school expenses over a five year period:

SCHOOL YEAR	SCHOOL COSTS	NUMBER OF ELEMENTARY PUPILS
1947-48	\$20,767.60	149
1948-49	22,013.18	156
1949-50	27,915.37	183
1950-51	30,921.12	199
1951-52	31,716.04	188

Here is a comparison of our per pupil costs over a five year period:

1947-48	\$ 122.16
1948-49	126.23
1949-50	130.52
1950-51	134.51
1951-52	144.21

Here is a comparison of our State Aid reimbursement over a five year period:

1947-48	\$ 8,423.14
1948-49	8,623.15
1949-50	11,275.03
1950-51	12,786.42
1951-52	13,773.71

WHERE THE MONEY COMES FROM—\$32,000.00

Local Real Estate Tax	\$19,000
State Aid	\$13,000

HOW YOUR MONEY IS SPENT—\$32,000.00

Salaries of Teachers and Supervisors	\$19,000

Here are the enrollment and percentages of attendance figures in our schools for the Fall Term of the present school year. Please note that our Springs School is overcrowded with more than 30 children in all eight grades. Your School Directors, and the parents from that area are well aware of the situation, and are working together to find a solution.

CONCLUSION

The key to any successful school operation depends greatly on the co-operation between school directors, teachers, and students. This year it has been excellent, and for that, I am most appreciative.

Respectfully submitted,

ARTHUR C. OULTON,
Superintendent of Schools.
